**Subject:** RE: Red Hill groundwater modeling and AOC meeting scheduling and planning

Steve,

Thanks for the update. BWS is available to participate the entire week of Nov 13 and will be ready to discuss CSM on the 16<sup>th</sup>. I assume the meeting location will be at the Fed Fire building. Please let me know soonest of any changes and when the schedule is finalized. Thanks again.

Erwin

Correction:

Erwin,

The Navy has proposed having further meetings on site conceptual model on the 15<sup>th</sup> (AOC parties only) and on the 16<sup>th</sup> (AOC Parties and external SMEs). We have indicated that we can be out for the week. We are trying to figure out what else we need to discuss that week. We are still waiting for information from the Navy on NDE so that we can further discuss selection of coupons for destructive testing.

I am hoping that we can keep the week of the 13<sup>th</sup> focused on section 6 & 7 issues and cover any of the Sections 3,4, 5, and 8 issues down in Orange County the week of December 4<sup>th</sup>.

I will check in with Mark and see if we can start nailing down schedules and agendas.

I am out most of next week and all of the following week on vacation out of the country, so I will not be checking messages.

Thanks

**Subject:** RE: Red Hill groundwater modeling and AOC meeting scheduling and planning

Hi Travis,

Thanks for the update. Please note that Nov 20 is Thanksgiving week and one of the busiest travel times of the year. If the groundwater modeling meeting is to be held that week, we need to know now in order to book airline tickets. You also may be aware that EPA is considering scheduling AOC meetings during the week of Nov. 13.

Steve L,

Are you still considering AOC meetings during the week of Nov. 13? If so, is it possible to fold in the groundwater modeling meeting during that week so that we can reduce travel costs?

Please let me know your decision on the scheduling. We would like to know soon to book flights as early as possible and get the best rates and flight times. Thanks.

Erwin

Hi Erwin,

Talking with Tracy today, I believe EPA is looking at the weeks of either November 6 or November 20. They would like to come out in person for at least one full day, if not two. I'll let you know as soon as anything firms up.

Thanks,  
Travis

Hi Travis,

Thanks. Yes. I was trying to reach you. My direct number is 748-5091. I wanted to know how was the scheduling coming along for the next groundwater modeling working group meeting. Is Oct 30-31 still the preferred date? I think I can rearrange my schedule on those days. Please let me know. Thanks.

Erwin

**Subject:** Missed Call?

Hi Erwin,

I saw that I missed a call from BWS while in a meeting (caller ID was 748-5000). If it was from you, please let me know how I can help you. I'm in and out of parent teacher conferences for the next couple hours, but will get back as soon as I can.

Thanks,  
Travis
